By sending in an entry form to participate in the KNMV ONK Motocross competition each rider accepts any duties at an event regarding promotion of the competition and the rider certifies that he is holder of the appropriate FIM license, is insured for personal accidents according to the relevant FIM/FIM Europe provisions and is authorised to start at the ONK Motocross events (mentioned on FIM/FIME open Motocross calendars). According to Article 110.2 of the FIM Sporting Code, when granting a start permission or by issuing an FIM/FIM Europe riders license, the FMN is certifying that the rider is insured for personal accidents covering death, permanent disability, medical treatment and repatriation in conformity with the FIM Regulations and Annuaire. Each rider must send an official Starting Permission from their Federation to the KNMV before the first event the rider wants to participate.

Each rider will be given a Starting Number for the entire competition and is directly entered for all ONK races in the selected class for the 2020 season. This does not mean a rider is obligated to ride all ONK events. The top 40 of the ONK500, ONK250, ONK 125 & ONK 85 BW of the actual standings will be qualified for the next Dutch Masters of Motocross event.
